

COSA PRIMELink

Sam Hutchins

Current Portal

- ▶ Operational since Sept 2006
- ▶ Consists of several pieces of software loosely integrated
- ▶ Produced significant operational improvements (invoicing, accountability, visibility, standardization, document control)
- ▶ Reasons for replacement
 - Reliability issues – significant upgrades required
 - Difficult to maintain operationally & technically
 - Not user-friendly or intuitive – large learning curve
 - Projects segmented – can't run reports across projects
 - Provide additional operational benefits

COSA PRIMELink

- ▶ City of San Antonio Project Reporting & Information Management Exchange Link
- ▶ End of April 2012 go live
- ▶ New Projects - COSA PRIMELink
- ▶ Existing Projects - Migrate to COSA PRIMELink based on project status
- ▶ Training is forthcoming

COSA PRIMELink Features

- ▶ Hosted in Cloud Environment - one program
- ▶ Increased reliability
- ▶ Single source for project information and document storage
- ▶ Uses forms versus pdf files
- ▶ Increased visibility of tasks
- ▶ Only projects/documents/functions where you have access are visible
- ▶ Configurable by COSA staff
